

# Numerical Tab

*The numerical tab in Scope has two sub-tabs: Average results and Packet results. As the names imply, these two tabs show the corresponding result types in numerical table format.*

# Table of Contents

1. Average Results Tab ..... 3

2. Packet Results Tab ..... 3

# 1. Average Results Tab

This tab displays the average results in a table format. The table has a set of columns that can be selected for view. For more information on the columns and average results in general, see [Average Results in Qosium](#).

Sent info is not found, total (sent)

☐ Freeze table

Auto Column Width (include headers)

Auto Column Width (exclude headers)

**Table columns** lists all available average results. Use the *blue triangles* to expand/collapse each statistics group. Left-click on any statistics to display it immediately in the table as a column. Left-clicking an active statistic again will remove the column. To select multiple statistics, press and drag with the left mouse button. Statistics, which have results, are shown with bold text.

**Freeze table** stops automatic update of the table. This is especially helpful if there's a need to study the results in more detail during the measurement.

**Auto Column Width (Include Headers)** resizes columns according to the widest row. If you want to resize columns without taking the header row's width into account, use **Auto Column Width (Exclude Headers)**.

i

Tip

Double-click a result row to see the corresponding packet results in [Packet Results Tab](#).

# 2. Packet Results Tab

This tab displays the packet results in a table format. The table has a set of fixed columns. For more

information on the columns and packet results in general, see [Packet Results in Qosium](#).
